PROSPECTUS FOR CONFERENCE SPONSORSHIPS AND EXHIBITION OPPORTUNITIES

From: NTD 2018 Conference Organizing Committee

We are pleased and honored to invite you, on behalf of The PR Chemists Association (CQPR), the IUPAC PR National Adhering Organization (NAO), to the 2nd International Conference on Global Challenges in Neglected Tropical Diseases (NTD 2018) **"United to eradicate the global threat of Neglected Tropical Diseases"**. The event will take place at the Conrad Condado Plaza Hotel in San Juan, Puerto Rico from June 25 - 27, 2018.

The conference is aimed to serve as a powerful catalyst for collaborative efforts and projects led by the next generation of scholars, researchers and industry professionals.

NTD 2018 is part of the international conference series being developed as part of the mission and strategic plan of the CQPR Commission for Scientific Events & Formative Activities (CAFEC). Our Conference Organizing Committee is engaged in producing scientific and well-rounded programs for science and technology professionals while promoting knowledge exchange and collaborations at the international level.

Sponsors and exhibitors will have the chance to support awards for advanced students, young researchers and invited scientists partaking in the NTD 2018 conference. Should you wish to suggest a topic, submit a talk or offer a workshop, please contact Dr. Nestor Carballeira at: nestor.carballeira1@upr.edu. More detailed information about the conference content, practical arrangements and an updated program agenda will be periodically posted at the conference website.

The exhibition area will count with the participation of conference sponsors, service and technology providers in the disciplines related to the NTD space and allied science sectors. This ecosystem will enable a knowledge convergence platform with participants in which their products and services are presented. Your support as well as from the other like-minded organizations will be critical towards ensuring a successful NTD 2018 Conference.

Please carefully review this brochure and join us in celebrating our 2nd International Conference on Global Challenges in Neglected Tropical Diseases (NTD 2018)". You may reserve your participation space either as a conference sponsor and/or as an exhibitor to present your organization value proposition and/or your products and services in Puerto Rico and Caribbean region. If you have any questions or need additional information, please contact:

- Carlos Castañeda at 787-529-4755 or e-mail carlos@lccmanagement.com.
- Vanessa Cancel at 787-763.6070 or e-mail: vcancel@cqpr1941.org.

We will respond in a promptly manner to your inquires or requests. We look forward to partner with you in NTD 2018 for an unforgettable experience in knowledge sharing that will endure for years to come.

Sincerely

CAFEC and NTD 2018
Conference & Exhibition Organizing Committee

Conference areas

- Biology and pathogenesis of the pathogens, diseases and hosts.
- Molecular targets-based and structure-based medicinal chemistry approach to maintain healthy drug-discovery pipelines.
- Monitoring, containment and treatment of drug resistant cases.
- Bench to bedside translational research to evaluate new drugs and drug combinations.
- Socioeconomic and public awareness programs in neglected tropical parasitic diseases.
- Opportunities to develop multidisciplinary programs and sponsorship funding.
- IUPAC's ChemRAWN session on low cost diagnostics
- Others (i.e. contributions & innovations from industry)
- Potential workshops(s) before/after congress

The aim of this knowledge convergence forum is to bring researchers and other participants from different world regions, where these diseases are prevalent, to interact with colleagues from North, South, Central America and the Caribbean Basin. The objective is to encourage discussion and knowledge exchange about new approaches for combating these diseases through treatment and prevention. In addition, the conference seeks elevating the awareness of neglected tropical diseases, particularly in Latin America and the Caribbean. Also, this gathering will help stimulate the medicinal chemists from these countries to conduct research in the field by allowing them to have a platform for contacts between laboratories in academia, industry, health agencies and foundations in the Americas and other parts of the world. With the latter in mind, spaces for one to one meetings between participants will be made available throughout the three days of the event.
